

HEMANG BAJANIYA

Software Developer

📞 (+91) 8141411807 @ hemangbajaniya2812@gmail.com 🔗 linkedin.com/in/hemang-bajaniya 📍 Vadodara

SUMMARY

Detail-oriented Full Stack Developer specializing in MERN Stack and ASP.NET Core Web API, with proven experience building scalable web applications and robust RESTful services. Adept at implementing clean architecture, secure authentication, and role-based access control in real-world projects such as a Virtual Community Support Platform. Proficient in JavaScript, C#, SQL, and modern UI design, leveraging Agile methodologies for efficient delivery. Passionate about continuous learning, actively enhancing core computer science concepts and problem-solving skills. Eager to contribute technical expertise within innovative development teams.

EDUCATION

B.Tech in Computer Engineering (CPI: 8.69)

BVM Engineering College

📅 08/2023 - Present 📍 Anand

Diploma in Information Technology (90.93%)

The Maharaja Sayajirao University of Baroda

📅 11/2020 - 05/2023 📍 Vadodara, India

PROJECTS

ThinkFlow

- Developed a full-stack Q&A platform inspired by Stack Overflow using React, Node.js, Express, and MongoDB.
- Implemented features including JWT-based authentication, Monaco code editor integration, advanced search, and voting system.
- Designed a responsive UI with tag filtering, profile management, pagination, and protected routes for authenticated user actions.

Virtual Community Support

- Developed a full-stack Virtual Community Support platform using Angular and ASP.NET Core with secure authentication and role-based access control.
- Enabled organizations to manage community service missions, user registrations, and administrative workflows efficiently.
- Delivered a responsive, modern UI to improve user experience and streamline mission coordination.

AI Code Reviewer

- Created a responsive web interface for code writing and review
- Integrates AI assistance for enhanced code reviewing

CERTIFICATION

Responsive Web Design

Free Code Camp

Python Essentials 1

Cisco Networking Academy

Human Computer Interaction (In English)

NPTEL

SKILLS

MERN Stack	ASP.NET	PostgreSQL	
MongoDB	AngularJS	React	
EF Core	API Design	ASP.NET Core	
JavaScript	Node.js	Express.js	C#
Python	C/C++	Java	PHP
Flutter	IoT	Responsive Web	
Full-Stack Development		Teamwork	
Collaboration	Adaptability		

EXPERIENCE

Summer Intern

Tatvasoft

📅 05/2025 - 06/2025 📍 Remote

- Collaborated in a professional software development environment during a 15-day virtual internship, gaining exposure to real-world Agile workflows and industry-level coding standards.
- Participated in hands-on training sessions and reviews with senior developers, enhancing understanding of web architecture, clean API design, and backend integration.
- Strengthened problem-solving, debugging, and frontend/backend integration skills.

Software Engineering Intern

bitinfotech

📅 06/2024 - 07/2024 📍 Vadodara, India

- Applied MERN stack development skills to build a collaborative Q&A platform
- Designed RESTful APIs and ensured responsive UI
- Implemented JWT-based authentication and session handling
